ISOCELL® Z-wall

DO AWAY WITH THE ICE
AND THE COLD WITH THE
UNIQUE TECHNOLOGY
OF ISOCELL® Z-WALL

Nearly **2X** the insulating power of **ANY** other system on the market today!

These diagrams illustrate the heat zone

THE MULTI-WALL ISOCELL® Z-WALL OFFERS:

The "Z" structure of membrane inserted inside two films by the **ISOCELL® Z-wall** technology offers the possibility to manufacture this unique ventilation wall while having multiple insulating cells.

This insulated barrier of the Multi-Wall **ISOCELL® Z-wall** minimizes the heat transference of the colder external air and the warmer interior air cells.

By eliminating the heat transfer, the new Multi-Wall **ISOCELL® Z-wall** is the most insulating, economic, and efficient system on the market!

• **2X more insulation R3.0 (U1.9)**

• **Excellent luminosity**

• **Increased reliability**

• **Elimination of ice formation**

• **Stronger, more solid core structure**

• **Improved lowering of the membrane due to the Z design**

• **Continuous opening up to 10 feet (3 m) and double opening up to 20 feet (6 m)**
